Motivated professional focused on delivering innovative and efficient solutions that improve user experience and meet business objectives. Recognized for my adaptability, problem solving skills and proactive approach to overcoming challenges and achieving results.

PROFESSIONAL EXPERIENCE

Wimix Solutions S.A

Software Developer - Full Time

Managua, Nicaragua

February 2025 – Currently

- **Enterprise management systems development:** Develop and implement ERP systems using TypeScript, NestJS, and TypeORM for efficient database entity management and transaction handling. Optimize data structures and business logic to improve system scalability and maintainability.
- **Financial reporting:** Actively contributed to the design and generation of financial reports using Crystal Reports, ensuring accurate accounting information to support decision-making for microfinance companies. Additionally, participated in the development and maintenance of the codebase to guarantee system stability.

Insignia Financial Group

Web Frontend Developer - Freelance

Panamá City, Panamá

November 2024– December 2024

- **GUI design and implementation:** Developed and maintained user-friendly GUIs using React, resulting in a 20% improvement in customer satisfaction according to internal surveys.
- **Template optimization:** I was actively involved in optimizing templates exported to Power BI, which reduced report load time by 15%.

Brandifiy - Digital Platform

UX/UI Designer - Freelance

Managua , Nicaragua

April 2024–June 2024

- **User experience principles:** I applied UX/UI principles to ensure smooth usability and visually appealing interfaces, resulting in a 30% increase in user interaction.
- **Collaboration with multi-disciplinary teams:** I worked closely with developers and stakeholders to ensure designs were technically feasible and met business objectives.
